Hegeman Refused Salary. The insurance inquiry to-day produced the spectacle of a man who refuses to accept a salary of \$100,000 forced on him by an admiring board of directors. That man is John D. Hegeman, president of the Metropolitan Life Insurance Company, whose income during the past fifty years has averaged \$50,000 annu-

The first subject taken up in the exthe salary list of the executive staff of the Metropolitan Life. It was shown that since 1892 Hegoman's salary and commissions had increased from \$7,000 in 1892 to \$106,000 in 1995. The salary of Vice-President Haley Fiske had in-creased at the same ratio. He now receives \$75.000 a year. Second Vice-President George H. Gaston gets \$37,500 a year, Third Vice-President George B. Woodward receives \$18,000 a year.

Down to 1896 the nominal salary of the President was \$6,000, but there was an arrangement "one time two times" and "one-eighth of one time." This puzzled Mr. Hughes. "Well, it was this way." explained

Hegeman. "If at the end of the year the premiums in force in the industrial department had increased \$10,000 and premiums on that iccrease were in torce, why I got \$20,000."

GIRL CHASED OCEAN STEAMER ON A TUG.

BOSTON Nov. 9.-Miss Tarbolton of Australia, bound to Europe, caught the White Star steamer Cymric to-day after a sensational episode. Just as the steamer cleared from the dock a hack dashed down the pier and the young woman jump-ed out. A tug was haled, Miss Tarbolton jumped aboard, and as the little vessel chased the Cymbric, a rope ladder was let down the side of the liner. Miss Tarbolton grasped it as she got alongside and worked step by step up to the deck.
